

On Your Own Project - Mortgages & Rent

Scenario: The day after your high school graduation, you have been forced to live on your own. This project is designed to give you experience and knowledge so that you will have familiarity for many of the responsibilities and costs that you will soon have to take care of. The more realistic you take this and the more effort you put into this, the better prepared you will be to face the important challenges of your financial future!

Mortgages & Rent

Part I (Homework)-

Go on the internet and find an apartment that you would like to have for the scenario detailed above. Print the internet listing out and staple it to the back of Part II. The listing must provide plenty of details that make you want to live there.

This listing must be for a southern California location

Keep in mind how much you make when you decide on a place to live. If you're not making very much money and you choose a very expensive place to live, your assignment will not be accepted.

The listing MUST show how much money is required for monthly rent.

Part II (Homework)-

In a format that exactly conforms to the YLHS Research Paper Style Guide, type out a paper (minimum of half a page) with complete sentences where you discuss the following:

- 1) In your own words, describe your place
- 2) Explain all of the factors that made you choose this place
- 3) Type out the monthly rent and circle it. If you chose a 2 bedroom place, you can split the rent in half, 3 bedroom place can be split into thirds and so on. . .
- 4) Type out and circle any other fees that you will have to pay according to the listing
