Business Expo Peer Evaluation Form

<u>Directions:</u> Each student is responsible for completing his or her own Peer Evaluation Form. Each student must evaluate six other groups' businesses. When you are finished, the group members who stayed with your business display will evaluate six businesses. Only spend about two to three minutes with a business to ensure that everyone in your group has the opportunity to evaluate a minimum of six other groups.

You are acting as an investor. As you visit other businesses, consider how visually appealing the Business Expo Display is, how knowledgable the business owners are about their business plan, how many people would actually want the good or service, and whether or not you think you'd make profit from investing in them.

Business Name:

Be fair and honest here. Consider who had the most solid business plan and best display and would be the most successful for #1. For #2, consider who had the best G&S idea even if their plan was weaker.

#1: Group you would invest the most money in:	

#2: Group with the best idea for a good or service: _
